I, _____ ,
**NAME OF COPYRIGHT HOLDER**

hereby, grant ASME, permission to publish my FINAL PAPER, identified within paper number

_____, _____
**PAPER NUMBER** **TITLE OF WORK**

to be published in the March 2012 Issue of the ASME-Journal of Medical Devices print and online versions. This abstract was originally submitted to the University of Minnesota-Design of Medical Devices Conference.

The author(s) grant ASME, its successors and assigns a non-exclusive, worldwide, transferable, irrevocable, royalty-free license to (A) edit and modify the Abstract; (B) reproduce, distribute, publicly perform and publicly display the Abstract in whole or in part either individually or as part of a collective work in print or electronic format, including ASME's online publications database/ASME Digital Library; and (C) sublicense the foregoing rights to third parties. The foregoing license is for the term of copyright (and any extensions under any copyright laws now or later in force). You also grant ASME the right to use your name in connection with the Abstract. You waive all rights generally known as moral rights in the Abstract, to the extent they can be waived, under any existing or future law of any jurisdiction.

I warrant that I have the full power and authority to grant this permission. I certify that the material I have submitted is my own and does not contain any defamatory or libelous material. I further certify that this material does not infringe on any third party's copyright, patent, trade secret, or other proprietary rights and does not violate the right of privacy or publicity of any third party or otherwise violate any other applicable law. If the material contains excerpts from other copyrighted material, I have acquired in writing all necessary rights and permissions from third parties to include those materials in this presentation and have provided appropriate credit for the third party material.

I further release the University of Minnesota from any claims and demands arising out of or in connection with any use of the material cited above.
